

## PASSENGER RATE QUESTION SETTLED

Senate, by Big Vote, Kills Bill for Cheaper Family Mileage Books.

## MESSAGE SENT TO PRESIDENT

Governor and Council of State Urge Him Not to Veto Webb Measure.

[Special to The Times-Dispatch.] Raleigh, N. C., February 18.—The State legislature book bill, introduced in the House to require railroads to pull mileage on trains, and finally put through that body with this feature struck out and the requirement substituted that family mileage books be provided at 2 cents a mile, under penalty of a flat 2-cent mileage for the State, was killed in the Senate today, after a spirited debate, in which Senators Bryant, Daniel, Ward and others opposed the bill on the ground that the whole question of passenger rates in North Carolina was settled during the Glenn administration through the compromise agreement now in force, and this matter should not be disturbed.

The Senate passed the bill to require certification to clerks of courts of names of all partners in partnerships, for information of the public, also the bill to empower the State Commissioner of Insurance to refuse or revoke licenses to insurance agents.

The House voted today the bill to secure the number of directors of the State School for the Deaf and Dumb, at Morganton, and require the appointment of one graduate of the school on the board. The bill, introduced by the North Carolina Builders' League, passed, with amendments eliminating the requirement for builders to give bond and a feature that architects have been on building for services.

Mr. Davis prepared the telegram and then called on the State officers to secure their signatures. The telegram, as prepared by Mr. Davis and signed by the State officers, as Council of State reads:

"We trust that it may not be deemed improper for the undersigned members of the State of North Carolina to express the very earnest hope that your excellency will refrain from vetoing the Webb bill. We are each of us convinced that the law is constitutional. It has the endorsement of the Committee on the Judiciary of the National House of Representatives, and in the presence of any doubt about the matter we urge you to give the several States and the millions of homes in the land the benefit of this doubt and let the saloon interests take the matter to the courts if they see fit."

This is signed by Governor Craig, Secretary of State J. Bryan Grimes, Auditor W. P. Wood, Treasurer B. R. Lacy, Superintendent of Public Instruction J. Y. Jeyner and Attorney General T. W. Bickett.

It is a notable fact that the adoption of a resolution by the General Assembly for a commission of three legislators to be appointed to examine the records of any county they desire as to the failure of the counties to return inheritance taxes has stimulated receipts in the office of the State Treasurer considerably. Remittances are coming in ranging as high as \$1,000 and some counties as low as \$10. And how the receipts are very much quickened evidently by the agitation that has been going on the past week or so through legislative action.

A charter has been issued the Hagshone Company, of Watsons, Duplin County, with \$200,000 capital authorized and \$100,000 subscribed, by George W. Shank and others, for promoting patents. Levy Mills, Hickory, increase capital to \$225,000. Certificate of dissolution was filed by the Tidewater Grocery Company, Wilmington.

## OLD SCHEME IS TRIED

Party in Spain Seeks to Swindle Bristol Man.

Bristol, Va., February 18.—Luke T. Lowe, living on Woodlawn Avenue, last week received a letter from Spain offering him a fortune to take care of the daughter of a supposed Russian banker in prison in Madrid. The letter, old Spanish swindle, which has been worked on Americans for years. The scheme is to get an advance of \$1,000 to \$2,000 from the American eager to pick up a fortune, of course, this is the last he ever sees of the business.

A few years ago a Bristol business man went so far as to send the money. After he had sent the check he discovered that the same proposition had been made to another person here, and was successful in having the check stopped in the mails.
